

ACTUATOR TOOL KIT

The REXA Tool Kit, part number TK-1, provides the tools needed to rebuild power modules, control enclosures and most cylinders. The mechanical tools are made by Snap-On and carry a lifetime guarantee through your local dealer. A compact nylon attache is included to securely store the components.

The kit consists of:

- Flat tip screwdrivers – electronic, small, medium and large
- Phillips screwdriver – #2
- Pliers – snap ring, standard
- Adjustable wrench – 8"
- Wire cutters
- Wire strippers
- Wire crimper
- Pick set
- Nut drivers – $\frac{3}{16}$, $\frac{1}{4}$
- Allen key set
